# In vino veritas

Discover exquisite wines

We offer a wide range of activities for wine enthusiasts – after all, Therme Laa is located in the heart of Austria’s largest wine-growing region.

## Veritas wine bar

The hotel’s wine bar Veritas offers an array of regional and selected international wines. Enjoy them during your stay at the hotel or take advantage of the opportunity to add a few of the best wines from Austria and around the world to your wine cellar at home.

## Vinissimo wine tasting room

In the Vinissimo wine tasting room, you can take part in fascinating wine tasting events. Learn more about the wines you enjoy, and discover which wines you really like to drink.

## “Wine tasting samples”

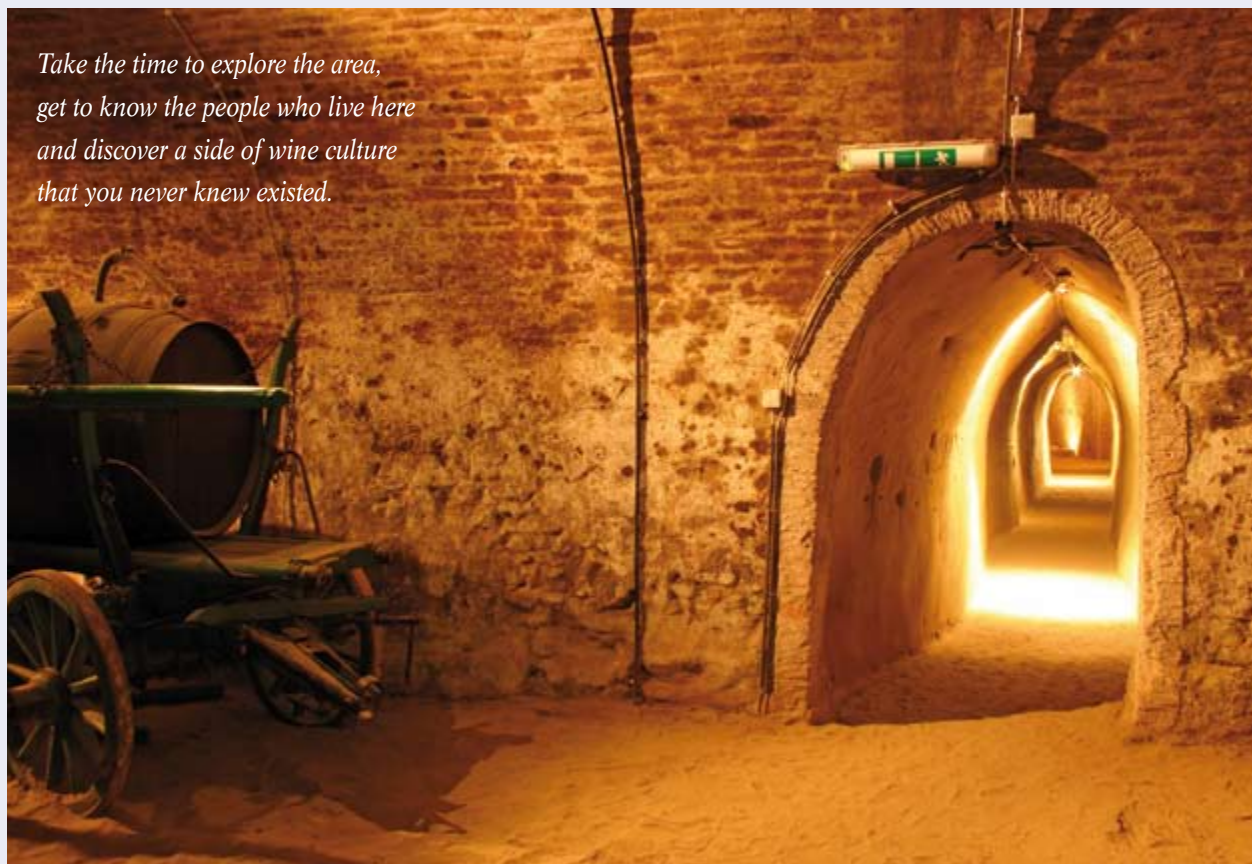

We offer regular wine tasting samples presented by regional winegrowers. Taste wines directly from the growers, find out more about grape varieties and wine-growing regions, and discover your own personal favourite wine.

## Organised tours

The Weinviertel has a tradition that goes way back. We organise tours to the most beautiful places along the Weinviertel’s romantic “Kellergassen” (cellar lanes).

*Wine lovers are experts and connoisseurs. This is the philosophy in the Weinviertel, the largest wine-growing region in Austria, with 16,650 hectares of vineyards. The people who live here strive to achieve harmony and honour age-old traditions – because they know that these things are just as important for producing good wine as the sun and the right location.*

*Take the time to explore the area, get to know the people who live here and discover a side of wine culture that you never knew existed.*

*The Weinviertel – where the earth and the heavens meet*

Also known as the softly swaying vineyards, the gently undulating hills of the Weinviertel are where Austria's most famous white wines grow in loamy soil. But under these hills is a labyrinth of passageways and vaults –

still the best wine cellars for allowing wine to mature naturally. Discover the separate worlds above and below the ground. Explore the visible world on extensive hikes, by bicycle or by car, and venture underground to view traditional wine cellars.

*Poysdorf – the town of wine*

This town in the heart of the Weinviertel is considered the Austrian centre for sparkling wine. With picturesque lanes, cosy pubs and restaurants, lots of museums and the newest attraction, VINO VERSUM, or the "World of Wine", where the whole process of winemaking is concentrated into one square kilometre of space.

*Falkenstein – where the falcons reside*

Falkenstein Castle, which gave the town where it is located its name, attests to the long, eventful history of the Weinviertel region. This wine-growing town still defies the hustle and bustle of modern life and offers an oasis of tranquillity for serene strolls.

*Retz – the town with the windmill*

Although the town's large windmill is its main landmark, the real attraction here can be found underground: the largest wine cellar in Austria, extending over an area of around 20 kilometres below the centre of the town.
